Dutch Arbitration Day 2024

Much has been achieved, but more remains to be done.

Over recent years, the arbitration world has seen a significant evolution, solidifying its role as the dispute resolution mechanism of choice for an increasing number of parties. However, the dynamic global environment continues to introduce challenges for the arbitration community. Technological innovation disrupts the status quo and environmental, social, and governance considerations are reshaping the (corporate) world. This requires the arbitration community to not only keep pace with these changes, but to also actively engage with them to secure the future of arbitration as the preferred method for resolving disputes. This year the Dutch Arbitration Day ('DAD') will focus on the topic:

'Arbitration for the Next Generation'

This event will bring together esteemed arbitration professionals to explore the challenges and opportunities that lie ahead for the next generation of disputes, arbitrators, advocates, technologies, and arbitration rules. The aim of this day is to create an atmosphere that encourages the exchange of pioneering ideas, setting the stage for the evolution of arbitration. The value of the informal dialogue that takes place among DAD participants cannot be overstated, as it is crucial in identifying and addressing the work that lies ahead.

Moreover, the DAD is an excellent occasion to (re)connect with fellow arbitration experts. Set against the backdrop of Amsterdam's charming canal boats and the vibrant atmosphere of the H'ART museum, the event provides plentiful opportunities to interact with fellow experts and to create new connections within the arbitration community. We are delighted to welcome you to the H'ART museum in Amsterdam and are committed to delivering an engaging and memorable event.

Yours sincerely,

The 2024 DAD Organising Committee,

Lennart Baijer (Eversheds Sutherland)

Sarangi Elavarasan (NautaDutilh)

Johannes Fahner (Lévy Kaufmann-Kohler)

Anne Hendrikx (Clifford Chance LLP)

Word of Welcome by the DAA President

Stan Putter

Associate Partner at HBN Law & Tax

Dear DAA members and distinguished guests,

I am delighted to welcome you to the 2024 Dutch Arbitration Day (DAD). This year's program focuses on 'Arbitration for the Next Generation'. We will explore this theme from diverse angles, delving into emerging trends and innovative practices that will play a role in shaping the future of arbitration.

In the backdrop of a vibrant cultural setting, we anticipate inspiring dialogues and fruitful networking opportunities.

Arbitration has long been a cornerstone of alternative dispute resolution, offering a flexible, efficient, and private means of resolving conflicts outside the traditional courtroom. However, as the world evolves, so too must our approaches and practices in arbitration. Together with esteemed speakers, we will explore these changes, examining the challenges and opportunities that the next generation of disputes, arbitrators, advocates, technologies, and arbitration rules face in shaping the future of arbitration. Traditional ideas about arbitration might even be challenged and reimaged during the various panels and workshops throughout the day.

We encourage the guests to engage actively in the discussions, ask questions, and share their perspectives. We hope this day will contribute to advancing arbitration practices and facilitating fair and efficient dispute resolution, ensuring that the arbitration field remains adaptable and responsive to the evolving needs of the stakeholders.

Thank you for joining us today. We wish you all a great day and look forward to seeing you back in Amsterdam next year.

Mr. S.N.J. (Stan) Putter
